

# Bead Selections for Hairsticks

*This page was last updated on Saturday, July 10, 1999.*

We carry more than 350 different colors, shapes, and sizes of beads in our inventory. What you see here is a wide assortment, however if there is a particular bead you are looking for (or remember seeing at a recent festival), please don't hesitate to [ask](#). There are approximately 1.2Mb of photos on this page! After the last beads are finally online, we will create separate pages for each color for faster loading. For now, go get a notepad & a pen to make a note of those beads that you are about to fall in love with & come back. ;-) Thanks!

Any of our beads can be custom ordered on top of any of our hairsticks (sorry, we do *not* sell individual beads). All prices reflect what a *pair* of hairsticks with the indicated beads cost. Several of our ["collar beads"](#) (including rhinestones & "pumpkins") have a \$2.00 *per pair* surcharge.

## Special note

Those beads appended with the letters **G** or **N** are owned by our children, Glenn and Nicole. When you buy a set of sticks decorated with these beads, one-half of your money goes directly into their college fund. *Thank you!*

If you would like to search the entire site for a bead description, enter your keyword(s) here: Precede each search with a "+bead" to narrow your search.
